# RESOLUTION

Encouraging increased public awareness of eating disorders and expanded research for treatment and cures.

Whereas an estimated 5,000,000 to 10,000,000 people in the United States suffer from eating disorders, including anorexia nervosa, bulimia nervosa, and binge eating disorder;

Whereas eating disorders are more common among women, but an increasing number of men also suffer from these disorders;

Whereas an estimated 0.5 to 3.7 percent of women in the United States will suffer from anorexia nervosa in their lifetimes, an estimated 1.1 to 4.2 percent of women in the United States will suffer from bulimia nervosa, and an estimated 2 to 5 percent of people in the United

States experience binge eating disorder during any given 6-month period;

Whereas anorexia nervosa has the highest premature mortality rate of any mental illness;

Whereas eating disorders are associated with serious physical health consequences, including irregular heartbeats, heart disease and heart failure, kidney failure, osteoporosis, gastric rupture, peptic ulcer, tooth decay, obesity, gall bladder disease, diabetes, and death;

Whereas eating disorders are also associated with substantial psychological problems, including depression, substance abuse, and suicide; and

Whereas shame, guilt, and misunderstanding often afflict a person who suffers from an eating disorder, and prevent the treatment of the disorder: Now, therefore, be it
